

Colored Ends & Tabs

Premiumize your package

Colored ends & tabs create diverse and individual design options for the end of the can, making the most of the 360° opportunities for branding.

Why use this effect?

- Complement your design to create an eye-catching can that will stand out from the crowd.
- Great for differentiating ranges or flavor variants for consumers.
- Ideal for adding impact at point of purchase and consumption.

Important things to know

- Available on end diameters 200 and 202
- Combination with other tab or end products on request (e.g. Dual Color Ends, Cut Out Tabs etc.)
- Compatible with cold-fill and pasteurization processes.
- Colors for retort processes available upon request. Additional testing might be required.

Colored Ends¹ 200 diameter	Silver, gold upon request
Colored Ends¹ 202 diameter	Silver, gold and black upon request
Colored Tabs²	Silver, red, blue, green, black, clear lacquer Non-standard colors are available upon request.

Don't forget

- Lead Time: 2-4 weeks if the plant is running the color. ~16 weeks, if we have to qualify a new source of supply or for new non-qualified colors (dependent upon scheduling, production and shipping). 6-9 months for new non-qualified colors if color matching is required.
- Minimum Order Quantity Colored Ends¹: 2 m units with commonly used colors if the plant is running the color, 3 m units (one coil) if we have to qualify a new source of supply or with new non-qualified custom colors.
- Minimum Order Quantity Colored Tabs²: 2 m units with commonly used colors if the plant is running the color, 16 m units (one coil) if we have to qualify a new source of supply or with new non-qualified custom colors.
