

Laser Engraved Tabs

For endless sales promotion options

Laser engraving onto a colored tab reinforces brand messaging as well as providing sales promotion opportunities.

Why use this effect?

- Ideal for customer engagement to drive promotional interaction.
- A message on the top of the tab or a seasonal symbol boosts attention.
- Great for simple icons/branding or promotional campaigns.

Important things to know

- Available on end diameters 200 and 202
- Under Code Tab¹: An alphanumeric code or design engraved under a filled-in tab
- Laser Engraved Tab²: A symbol or text engraved on a filled-in tab
- Under Tab Codes¹ (UTCs) support campaigns with promotional 'win' mechanics. The underside of the tab is engraved with alpha-numeric codes which are visible once the can is opened.
- Combination with other end products on request
- We recommend you submit your concepts to ensure the final design is feasible.
- Requires two weeks for concept development. We then request signed customer approval of selected design.

Don't forget

- Lead Time: 2 weeks for concept development, 1 week for the customer to prepare and supply the codes to manufacturing site, 8 weeks for production after customer approval, plus shipping
- Minimum Order Quantity: 2 m units with silver tab, 16 m units with other colors
