

Eyeris® High Definition Printing

Images at their best

Printing technology that enables higher half-tone resolution, bringing detailed graphics and photographic imagery to life.

Why use this effect?

- Achieve sharper images and finer lines.
- Perfect for fine print detail.
- Great for creating an optical illusion of a third color by partly overlapping screens.

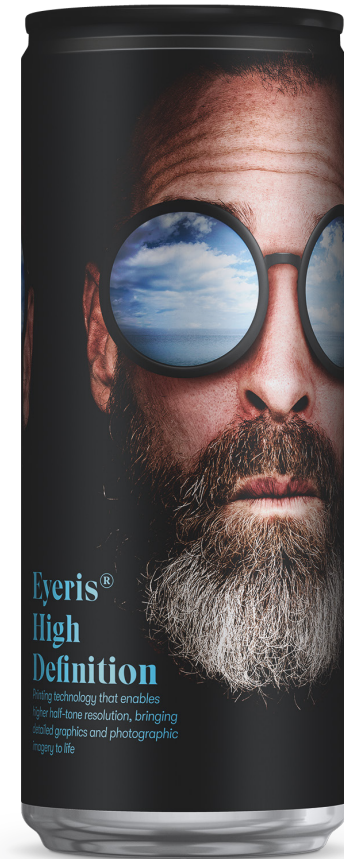

Important things to know

- High Definition Printing allows us to increase the resolution of halftone and to print it with less dot gain in production.
- Laser-image plate technology delivers creative design options.
- High Definition printing is available on all can sizes.
- We recommend design ideas are submitted to ensure the final artwork is feasible.*
- Compatible with all filling processes including retort.

Don't forget

- Lead Time: Please allow 4 weeks for reproduction and the delivery of laser plates
- Minimum Order Quantity: 1 million units
