

# Cut Out Tabs

## Take it one step further

**In combination with color, cut-out tabs are an eye-catching way to reinforce key brand communication.**

### Why use this effect?

- Great for 360° impact, branding or promotional campaigns.
- Maintain consistency across packaging mix.
- Use a range of icons to encourage consumers to collect / 'find the set'.
- Add a premium look and feel to the end of your cans.

### Important things to know

- Available in standard<sup>2</sup> or discrete<sup>1</sup> die cut in a range of colors for end diameters 200 and 202.
- Standard Cut Out Tab<sup>2</sup>: A symbol stamped out of a filled-in tab, using a single shape punch
- Discrete Cut Out Tab<sup>1</sup>: A multi shaped symbol using a multi-shaped punch
- Standard Colored Tab Availability: Red, blue, green, black, clear lacquer
- Non-standard colors are available upon request
- Combination with other end products on request
- We recommend you submit your design ideas to ensure the cut out is technically feasible. Designs should be evaluated for structural integrity and consumer safety.
- Requires two weeks for concept development. We then request signed customer approval of selected design.
- Additional tooling cost between €15-20k

### Don't forget

- Lead Time: 2 weeks for concept development, approx. 10-12 weeks for tooling after customer approval, plus production and shipping (standard colors only, subject to availability). Lead times apply for new colors.
- Minimum Order Quantity: 2 m units with silver tab, 5 m units with standard colors, 16 m units with non-standard colors
