

Neon Can

Illuminate your design

Inks that light up under UV lighting, making them particularly suitable for nightclubs and bars.

Why use this effect?

- Ideal for a differentiated drinking experience within the occasion.
- Great for supporting fun and social brand values.
- Perfect effect to increase brand appeal and recall.
- Brands cannot be missed in stylish bars and night clubs.

Important things to know

- The Neon effect makes designs shine when exposed to UV or black light.
- Neon inks are available in a limited number of colors including a transparent UV ink which is invisible under normal daylight. It only lights up under black light. It is not possible to match an exact Pantone color.* See page 2 for color selection.
- Neon inks can be combined with any standard colors.
- The neon effect is available on all can sizes.
- UV transparent ink is best used on large text or shapes on your design.
- Elements created using neon ink should be placed in the main body of the can.
- We recommend design ideas are submitted to ensure the final artwork is feasible.*
- Compatible with cold-fill and pasteurization processes up to 82°C but not for retort.

Don't forget

- Lead Time: 6 weeks from artwork approval
- Minimum Order Quantity: 1 million units
